## "BANKS' VAULTS ARE SAFE," SMITH SAYS

"There is no cause for worry on the part of our patrons," said S. M. Smith, cashier of the Merchants and Savings bank, "that our vaults are not safe since we have moved into temporary quarters. The vaults have not been moved. They are as safe as they ever were. Two watchmen are continually on the job. We have access from our temporary quarters to the vaults," he said.

A Ward Butler, superintendent in the construction of the new bank, stated this morning that a tunnel is being constructed now which will directly surround the vaults from the old to the temporary quarters. He said that the vaults would remain intact until the new building is completed.

## DAVEY RESIGNS AS YARDMASTER

D. P. Davey, 109 South Academy street, has resigned his position as yard-master on the C. & N. St. P. yards in Janesville. N. Peterson has accepted the position.

Mr. Davey has been yard-master here for about five years. He took this position, he was a conductor on the St. Paul line, and he will now take a position as conductor on the train running from here to Mineral Point.

## DOCTORS BELIEVE SPANISH 'NFLUENZA WILL COME BACK

(Continued from page 1).

Look to care for the numerous victims of the epidemic a year ago, are also making plans against a recurrence of the malady. These organizations do not intend to be caught off their guard in the event of another outbreak, and in a number of towns throughout the United States special committees have been appointed to make preparations for just such an emergency. During the epidemic a year ago many thousands of people died solely for want of care.

In his letter to Congressman Pess, urging the federal appropriation, Dr. Geier gives some impressive facts about the flu. He says it caused half a million deaths in this country last year, and that the insurance companies lost \$240,000,000.

The economic loss to the country, he says, is hard to estimate, but it is enormous. Economists agree that a human life is worth at least \$100,000. The loss of the lives lost alone would be about \$2,500,000,000. Add to this the working time lost by people who were sick, and the total economic loss of the country is somewhere between three and four billion. Dr. Geier cites these figures to show that it will pay the taxpayers to let congress spend some of their money preparing to prevent a recurrence of the flu.

The loss of time and man power, he says, is not really so important as the impairment of the country's health. The long lingering effects of the disease are an example of what these amounts to in one city. Dr. Geier states that the Red Cross chapter in Cincinnati is spending \$300,000 in examining persons who have had influenza, and finding in an enormous percentage of cases that they have come through the disease with impaired organs—heart, kidney or lungs. It is also alarming for a great many children who were able to make their own living before they had the flu.

Dr. Geier firmly believes that the flu problem can be solved by medical science. One after another, mysterious diseases have appeared to kill and maim, and one after another they have been conquered. Typhoid, yellow fever, diphtheria, typhus, cholera, and the rest of the list are now under control. The germ was discovered which caused the disease and then a specific was made or discovered which would kill the germ.

The same method must and will be applied to the flu. Many eminent scientists are making studies of the subject. What is needed is an appropriation and authority to enable the public health service to co-ordinate all these efforts, and make them into a national campaign against the plague.

## COURT TO SETTLE LAW ON MARRIAGE

Saturday will be an eventful day for Wisconsin residents who have been married outside of the state. On that day Circuit Judge Gustav Gehrz, of Milwaukee, will be asked to rule on the validity of a demurrer in a divorce case, on all questions regarding the legality of out-of-state marriages. At the same time, an opinion on the marriage law will be rendered by the court by Attorney General John J. Blaine. This opinion, it is stated, will cover all the points which have arisen over the controversy in the legality of out of state marriages.

The controversy over the interpretation of the marriage laws arose several weeks ago when Circuit Judge Halsey of Milwaukee in the trial of a divorce case rendered an opinion that all marriages performed outside of the state, where both parties to the action were residents of the state, were illegal.

A week later, Judge Gehrz in another case stated that all such marriages were legal after a year had elapsed or if one party to the marriage contract died and left heirs within a year.

## JANESVILLE MAN GIVEN PATENT

The following list of patents recently granted to Wisconsin inventors is reported for this paper by Young & Young, patent solicitors, 97 Wisconsin street, Milwaukee:

James E. Dempsey, Manitowish, control mechanism for headlights; Vance E. Edwards, Madison, manufacture of cellulose; Joseph Gruber, Milwaukee, window ventilator; Peter Kleinsider, Cudahy, water-cooled refrigerator; Alfred W. Madison, waterproof glue; Elmer J. Manning, Janesville, carburetor; Clarence H. Pratt, Milwaukee, monowheel drive mechanism; George H. Wheary, Racine, collapsible receptacle; George H. Wheary, Racine, slidable trunk holder.

## WILL ASK SUPREME PEACE COUNCIL TO NAME COMMISSION

(By Associated Press.)

Paris, Monday, Aug. 5.—Shipping and fuel representatives of France, Belgium and Italy conferred with Herbert Hoover, head of the international relief organization here today and decided to urge the supreme council of the European coal commission to co-ordinate the distribution of European coal in an effort to avert what threatens to be a disaster.

The meeting was held at a result of a warning given by Mr. Hoover in an address at the recent conference in London of the supreme economic council. He said Europe's coal production was 35 percent normal and the United States could not offer relief because of the shortage of shipping. Mr. Hoover said:

"The fate of European civilization now rests in the hands of the coal miners and coal mine owners of Europe. It is an equal if not to a greater degree than in the hands of the providers of food and supplies during next year."

Hoover declined to accept the permanent direction of the proposed European coal commission, stating he believed the problems to be strictly European.

Only a greatly increased coal production and improved organization of its distribution can save Europe from disaster next year, Mr. Hoover explained.

According to figures gathered by experts, England's annual production of coal has fallen from 292,000,000 tons in 1913 to 183,000,000 tons. Germany's production is slightly greater.

## ADDITIONAL TRUNK LINES FOR STATE

Madison, Wis., Aug. 5.—The special legislative committee which is laying out an additional federal highway route in the state will hold a hearing Tuesday afternoon at Rhinelander. On Wednesday, the committee will conduct hearings at Chandon, Thursday at Antigo and Friday at Shawano.

Under the federal highway law Wisconsin first laid out 5,000 miles of trunk line highway in the state to be constructed by the state. By additional federal appropriations the last legislature has authorized an additional 2,500 miles and the committee will conduct hearings all over the state on the routes proposed. The committee is composed of Senator E. F. Clark, Galesville, chairman; Senator Anton Kuckuk, Assemblyman John Chappie, secretary; Kubatzki and Ruka. It is expected that the report of the committee will be completed ready for filing in October.

## SIX DIVORCES ARE GRANTED BY JUDGE

Six divorces have been granted by Judge George Gilm in circuit court, four of them on the grounds of cruelty and non-support, and two on the grounds of desertion.

Doris Clarke Thonnes, Edgerton, was granted a divorce from Burnthrop A. Thonnes, proving her grounds of non-support and cruelty and inhuman treatment. She was given permission to resume her maiden name of Doris Louis E. Clarke. R. G. Cunningham appeared for the plaintiff.

On similar grounds, Margie Gilbert, through her attorney, George W. Blomberg, secured a decree of separation from John Gilbert, also the care and custody of two minor children. Allegations of non-support were used by Myrtle Sturtevant, Beloit, and Lulu E. Holden, this city, to get divorces from their husbands, Ralph Sturtevant and Roy E. Holden.

On the grounds of desertion, John Baker, Beloit, secured a divorce from Mary Baker, and Henry L. Halvorsen, also of Beloit, was granted a similar decree against Ethel H. Halvorsen. H. W. Adams and C. D. Ross were plaintiffs' attorneys.

## GAZETTE CARRIER BOYS ENJOY PICNIC

Sixteen Gazette carrier boys enjoyed a picnic and water roast on the river last night. The boys went up to the stone quarry in automobiles about 8:30 and built a huge fire, over which they roasted wieners. They took two gallons of ice cream along with them, which they managed to get rid of before they returned.

Bill McDermott was the star of the evening. The rest of the boys wouldn't have known what to do with all the ice cream if it hadn't been for Bill. Bill had had his supper and didn't care for anything else, but nevertheless he got rid of eight cones and he'd hate to say how many wieners.

The carrier all came back to Janesville about nine o'clock.

## BOYS WILL CAMP AT PHANTOM LAKE

All arrangements have been completed for the trip to Phantom Lake tomorrow. Forty boys will go in cars and spend two weeks there at the Wisconsin Boys' camp. The fourth period, from August 7th to 21st, will be in charge of A. C. Preston, boys' secretary of the local "Y."

The boys will meet at the "Y" tomorrow morning, where there will be eight cars waiting to take them up. The lake is about 27 miles from here and is hoped to arrive there a good while before dinner.

Those who will take boys in cars are Charles Tougou, Louis Levy, W. S. Burnes, F. E. Korat, J. R. Jensen (two cars), and Charles E. Noyes. A large truck will be hired to take the baggage.

## "Exams" for Chauffeurs for Physical Fitness

(By International News.)

St. Louis, Mo.—Chauffeurs who are color blind, weak, have poor eyesight or nervousness, will be subjected to an examination soon by seeking other employment.

Director of Streets and Sewers, Talbert has opened a laboratory for the determination of the physical fitness of chauffeurs employed for hire.

## LAKOTAS WILL INVADE LAKE LAWN TOMORROW

That section of Lake Delavan, known as Lake Lawn, will be invaded tomorrow afternoon by more than 80 stalwart members of the Lakota club. No, it is not their annual picnic, as that was held several weeks ago at Koshkonong. Tomorrow the Lakotas are to be entertained at the lake by Alderman John J. Dulin in honor of his son, Claude, who has returned to the city after spending the past 10 months under the boiling sun of southern Texas.

Mr. Dulin, who has been an ardent supporter of the Lakota club for many years, promised the outing to the members when he first learned that his son was to be discharged from the army. Mr. Dulin has made good his promise and the Lakotas are anxiously waiting for Thursday.

The trip to the lake will be via the automobile route and it has been so arranged that machines will leave the club's domicile on West Milwaukee street every hour during the afternoon.

According to the committee in charge of the affair, the picnic will be even greater than the one held last summer. Of course, the main athletic event of the day will be a ball game between the bachelors and the benedicts, and every effort is being made to have Alderman Dulin pitch, and his friend, Mayor Welsh, who will undoubtedly attend the outing, catch.

Harold Schwartz has promised to be on hand and he has issued a pre-pitney statement in which he claims that his antics will surpass anything he pulled off at the Koshkonong outing. Harold suggests that as many picnic guests as possible bring a picnic basket and he also promises to have a pair along.

At seven o'clock tomorrow night mess call will be sounded by Bugler Fuzzell and the hungry crew, most likely headed by Frank Kennedy or Joe Denning, will start their march on the dining hall.

At the conclusion of the dinner a short program will be staged, at which time it is hoped the Lakota club quartet will render a few selections. Bill

## Herd of Deer Hold Up Train in Colorado

(By International News.)

Colorado Springs, Colo.—A herd of deer "held up" a gasoline car on the Cripple Creek Short Line Railroad on a recent morning and compelled it to wait 15 minutes.

The deer, instead of becoming frightened at the approach of the train, in phalanx formation, raised their heads indignantly as though disputing the "right of way."

Officials aboard the train had to get off and chase the herd from the tracks.

## "Jitneys" No Good in New York City

(By International News.)

New York—Nickels might as well be taken out of circulation so far as they go in buying something to eat in any eating house in New York these days.

Even the white front restaurants, honor the morning and evening rush on their bills. Coffee, the last commodity which the jitney would buy, has gone to ten cents. Likewise "sinkers," rolls, etc.

## Enormous Wheat Crop in Col.—Worth \$40,000,000

Denver, Colo.—It is estimated the 1919 wheat crop of Colorado will approximate 20,000,000 bushels and will be worth \$40,000,000. For the first time in the history of Colorado, wheat will be the leading crop for 1919.

Langdon will be on hand and without a doubt will voice his sentiments on the "Heavy Artillery."

Later in the evening the members and their friends will participate in several tournaments. Championships will be at stake and possibly a little more.

## FARMS FOR SALE

I have some very good farms for sale, 120 to 320 acres, one to eight miles from a very good business town, population between 400 and 500, on the N. P. railroad in the Red River Valley grain belt. These farms are in good shape, good buildings, telephone lines and mail routes go past every farm. If you are planning to buy a farm for yourself these are a safe and paying investment. This is an opportunity you shouldn't let pass by at the price I am offering these farms for. Apply to

## "Ton of Pork" Club of Boys and Girls

(By International News.)

Haddam, Conn.—Seven boys and three girls of this town have formed a "ton of pork" club, the purpose being to produce 2,000 pounds of pork from ten little pigs which the members have begun to feed. The weights of the pigs are being taken at stated intervals, stimulating competition among the young owners in feeding methods.

## Alarm Clocks a Luxury? Former Soldiers Think Not

(By International News.)

Portland, Ore.—Jewelers here, com-

"Getting up a luxury?" ask the former soldiers. "It wasn't considered so in the army. You'll have a sweet time telling that to the boys."

**FRENCH METHODS AND OURS.**

Our soldiers in France, compelled  
to sleep in the mud or under the dubi-  
ous shelter of rough billets, far from  
home, and deprived by the necessities  
of wartime discipline of the freedom  
of action so prized by Americans, were  
reduced to a state of mind that made  
them quick to resent high prices in  
France.

Life was no picnic for the boys  
while overseas. Pay was often  
months late in coming, and money did  
not last long in a country where the  
home people were paying \$2 a pound  
for butter and \$1.80 a dozen for eggs.  
So as a natural result, much is being  
said to the detriment of French peo-  
ple, and unless we are disposed to be  
generously fair, relations with our ally  
will suffer.

Americans know something about  
profiteering and gouging; we are oc-  
casional offenders. Here are the observa-  
tions of a correspondent of the Review, a New  
York weekly, who tells of an incident  
on a train in Maine:

"I had had a conversation with a  
young New Englander, recently dis-  
charged, who expressed great bitter-  
ness because he had had to pay a  
large price for a knife in France and  
had, he thought, been overcharged for  
it. It happened that we got off at  
the same station and I inquired his  
name and learned that his father was  
one of the selectmen of the little lake  
village where I spend my summers.  
Then I recalled that the selectmen  
had assessed my cottage twice as  
much as that of the farmer next to me;  
this same boy's aunt charged us  
above the current rate for eggs and  
was so careful to pick out all the big  
ones for the Boston market that at  
times I have wondered whether she  
had not changed her cousin, who  
pigeons; that this boy's cousin, who  
plays golf on our hillside links, had  
shortly since 'borrowed' a dozen  
golf balls from my locker; that the  
village clergyman, who is a distant  
relative of this boy's, after selling me  
my property on the lake, arranged  
with a friend to claim that the title  
was faulty and that the lake front had  
belonged to him and not to the  
clergyman, and the two had tried for  
six months to blackmail me out of an  
additional sum of money for the land;  
all these things because I am to these  
people a New York millionaire, though  
in reality a college professor on an  
inadequate salary."

Americans would do well to try  
harder for the just, impartial view-  
point, and to avoid disliking people  
of friendly lands because they are dif-  
ferent. The French probably did not  
invent the trick of exploiting strange  
visitors. Perhaps we didn't, either,  
but we ought to practice self-exami-  
nation a bit.

**WE NEED MORE HOUSES.**

A city is never larger than its hous-  
ing facilities, except when there is a  
gold strike or someone discovers oil  
on his land.

The house question in Janesville  
has been discussed pro and con for the  
past seven months and although  
many solutions have been offered the  
city is still being held back because of  
lack of proper housing conditions.

In Janesville today more houses are  
being erected than have been built in  
the past five or ten years. People are  
wondering where the folks are coming  
from who are going to occupy the  
homes, but the citizens have been told  
on several different occasions that the  
influx of new residents will be far  
greater than was ever expected if  
houses can be built to accommodate them.

In Janesville at the present time  
there is not a vacant house and in  
several instances people have been  
told to bid on different places in the  
city. In many homes there are two  
and three families living in cramped  
quarters.

In the meantime, the city's old in-  
dustries are expanding and new ones  
are looking longingly toward Janes-  
ville.

All this means that Janesville is due  
for a steady growth, that more and  
more people will come to this city to  
live in—

If Janesville has room for them.

Janesville needs houses to sell and  
houses to rent.  
The Housing Corporation is build-  
ing houses in all sections of the city,  
but the housing corporation can't do it  
all. This building proposition is the  
business of every individual who  
has idle money.

The rent from an ordinary dwelling  
pays good interest on the principal in-  
vested. And as more homes are  
built, the home you own grows in  
value.

Let's have houses—and more  
houses.

**JAPAN AND CHINA.**

"I am at a loss to understand what  
all this fuss about the Shantung set-  
tlement is about," says Dr. Iyenaga,  
in a speech marked by his wonted  
intelligence and moderation. There is  
an infinite deal of pretense and hum-  
bug in the passion and King Cam-  
byse vein of the performers at Wash-  
ington who rant about Japan's inher-  
itance of German rights (or wrongs)  
in Shantung, seek to persuade the  
public, which knows better, that Kiaoo  
Chau of the 200 square miles in  
Shantung of the 55,000 square miles,  
and so try to make "campaign ma-  
terial" against the League of Nations  
and Mr. Wilson, the unpardonable sin  
in republican eyes.

Still, as Dr. Iyenaga candidly ad-  
mits, the weak point in the Kiaoo-  
Chau award to Japan is that it is

made "at the expense of a friendly  
nation." And Japan has promised to  
give it back. The pledge of restora-  
tion "has so many times been made  
by Japan's statesmen" at Paris and  
in Washington that it is wonders  
whether its reiteration at the pres-  
ent time would do any good.

Frankly, then, it is not reiteration  
of old or recent vague engagements,  
—it is a sharp, clear, definite, unmis-  
takable agreement, to be followed by  
specific performance, that will con-  
fute the enemies, real or shamming,  
of Japan, delight her friends of good  
judgment, and do a mighty lot of  
good here and in China.

Since it has been discovered that,

Q. How many people died during  
the "flu" epidemic last year, and what  
was the estimated economic loss to the  
country? H. E. R.  
A. About 500,000 died. The eco-  
nomic loss from death, sickness and  
debility was reckoned between three  
and four billion dollars.

Q. What is the best way to remove  
ink from the fingers? J. H. L.

A. Dampen the head of an ordi-  
nary match and rub briskly on stain.

Q. Is the turkey an American  
bird?

A. Yes. He was found in America  
in his wild state when Europeans first  
came here. About 100 years after  
America was discovered his turkeys  
became great delicacies on  
French tables.

Q. What was the total cost of the  
war? H. V. B.

A. The cost of the war to April  
30, 1918, was \$21,850,000,000—more  
than \$1,000,000 an hour for over two  
years.

Q. Can you give the height of the  
highest waves ever measured on the  
ocean? F. L. R.

A. It is said that the highest billow  
yet measured was 52 feet in height.  
This was on the Pacific ocean. They  
are said to be not over 30 feet high  
in the North Atlantic.

Q. What was the first book ever  
printed with type? C. H. K.

A. According to Pettigrew, the  
first book printed in type was the  
Latin Bible. It was printed by John  
Gutenberg at Mayence, about 1456.

There are only 20 copies of this edition  
known to exist, and the workmanship  
in type, ink and paper were better  
than any subsequent edition for 200  
years.

Q. What was the first book ever

**Sketches From Life -- By Temple****"Look Out!"****Travelette  
By Niksah**

Shelbina is eight miles south of  
Shelbyville, in Shelby county. All  
three are in Missouri and all three are  
named after Joe Shelby of Kentucky.

There is much about Shelby county  
to make the Kentuckian feel at home.  
Many of the leading families are shoots  
from Blue Grass and, like their  
southern kin, are good judges of femi-  
nine beauty, live stock and liquor—  
when there is any.

Corn is king in rich old Shelby, and  
the live stock that eat it waddle to  
market as fat and fit as anything that  
wears a hoof. For instance, at the  
late Chicago World's Fair, the stock  
raisers of Shelby county, in open com-  
petition with the whole world, cap-  
tured the prize for the largest hog  
and the finest lamb. That porked  
weighed about one thousand pounds,  
and if Mary had been looking for an-  
other lamb no other young sheep  
would have had a chance.

To see Shelby county at its best you  
must attend the Shelby fair on a  
Thursday. Here is regal Missouri on  
dress parade. You can mix with the  
gentry, eat fried chicken and water-  
melon until you nearly burst, and if  
you have clean gulluses it is no dis-

grace to go around in your shirt  
sleeves.  
On the last day of the fair, in con-  
trast to the greed and extortion so  
prevalent elsewhere, you can buy all  
the lemonade you can drink for a  
nickel.

**THE LITTLE DEEDS.**  
I reckon when this life is done and all  
my deeds are counted o'er,  
The Lord will toss aside the fame and  
gold and praise I struggled for.  
He'll put away, with scarce a glance,  
The selfish triumphs I have won.  
And keep the little kindly deeds that  
now and then I may have done.

When I am called away from earth  
—with all its pomp and wealth and  
sham  
And have to stand before the Judge of  
men exactly as I am,  
I fancy I shall see aright the things I  
often viewed with pride,  
And learn how trivial they are, as one  
by one they're cast aside.

Sometimes I think I see it now; when  
I'm alone sometimes I feel  
That I am lured by some mirage of

## News Notes from Movieland

BY DAISY DEAN

The end of jazz dancing is near, at least that is the opinion of Helen Daffin. Helen was onetime leading ex-

ponent of everything jazz from hula dances to the shimmy in San Francisco.

Now she is disconsolate, for she says that the end of the wild and intoxicating dances is in sight.

But Helen decided that there were other things just as exhilarating as the dance and she went into pictures to prove it. Now she is one of the many pretty comedienne in the Christy comedies. The life of a motion picture comedienne is far more lively than that of any dancer, is Helen's verdict after a short turn at leaping from boats into the ocean and falling from second story windows and being otherwise battered up in the name of "comedy." She has not yet had a square pie facial massage, but she says she expects one in any scene.

CHARLIE AND DOUG TO S. A.

Charlie Chaplin and Douglas Fairbanks are to start on a journey in the early fall which will take them to South America. They have both been invited to make pictures in the southern hemisphere and are going to take

advantage of the offer, leaving here some time in October. Traveling first to Rio de Janeiro they will get some Brazilian shots, and then will depart with bag and baggage for Buenos Aires, later leaving the Argentine for the western coast of Chile, probably headquarters in Santiago. Their expedition will cover from four to six months—depending on the weather conditions.

ANNA LEHR ILL.

Anna Lehr, who was selected to play opposite David Powell in the all star cast of "Teeth of the Tiger," now being produced at the New York studio of the Famous Players-Lasky corporation, has been compelled to withdraw from the cast. Miss Lehr was taken ill with pneumonia poisoning three weeks ago and her continued illness has necessitated a substitution and the retaking of the scenes in which she has worked.

Marguerite Courtot, his been engaged to take Miss Lehr's place.

OLD FAVORITES

J. Stuart Blackton has added George Bunny, brother of the late Harry Bunny, George Pancoast and Robert Altman to the cast of "Dawn," his current production. These three engagements complete the roster, which includes also Sylvia Brainer, Robert Gordon, Eddie Dunn, Lefty Barry, Harry Davenport, Gladys Valerie and Flora Finch.

TURTLE LAKE

Turtle Lake, Aug. 5.—A terrific electric storm or rather three storms coming from three different directions met at the lake Monday evening.

The numerous campers in tents and cottages were terror stricken as the storm waxed worse and worse, rain fell in torrents.

The cottage of L. L. Reese and sons occupied by Mr. and Mrs. I. L. Reese and son Harry, of Delavan, was struck by lightning and some damage was done to each of the three rooms and porch. The bolt struck a large oak

tree on the northwest corner and then to the porch.

The occupants were severely shocked and deafened and at present writing are still suffering from ear shock, but thankful for life and shelter.

Several trees were stuck during the storm at J. O. Anderson's but, no serious damage done, only the breaking of limbs and branches.

Rev. Pierson of Janesville, and boys are camping at the lake.

# CANNING TIME

## Demands Gas Range Cooking!

### No Other Method So Comfortable---

### So Economical---So Efficient

Gas Range Cooking is the really right way of preparing all cooked food—the reliable way—cool, quick, clean and easy, too. A simple turn of the valve regulates your heat. The slow, simmering flame so necessary for good results in preserving or canning is always instantly available.

Every authority on canning, preserving or preparation of cooked food endorses the superiority of the gas range over any other method, because it really saves material, fuel, time and labor.

On the score of comfort alone, the housewife of ordinary means would be justified in buying a New Cabinet Gas Range. But there is the added—and actual—advantage that cooking on a gas range is real economy. Practical tests, of numerous sorts, long ago established the fact that gas, properly used, is a much more efficient—therefore cheaper—fuel than any other fuel.

To get real, continuous, every-day, all Summer long pleasure from your porch, it must be protected from the sun. This is evident to all of us—but simply protection from the sun does not make your porch habitable—far from it. You must have ventilation. The hot air must be removed from the top of the porch.

## The New Patented VUDOR Ventilating Shade

permits the hot air to escape from the top of the porch through a wide open VENTILATOR woven in the shade itself at the extreme top, where the sun cannot shine in upon you. This Vudor woven-in-the-shade Ventilator automatically clears the porch of impure hot air and permits a continuous, gentle circulation of air without drafts.

## The New VUDOR Self-Hanging Device

enables you to hang a shade in five minutes—not a screw used. The old way of attaching a shade to the porch with screws took twenty minutes or more. With the new Self-Hanging way you can unhook the shade in the Fall—if you wish—and rehang it in the Spring in less than two minutes and this doubles the life of the Shade.

Let us demonstrate the new VUDORS for you. Second floor.

# ENGLISH LABOR LEADER PREDICTS "SPASM OF RAGE"

[BY ASSOCIATED PRESS.]  
Lucerne, Switzerland, August 6.—"Before the winter sets in there will be a terrible spasm of rage and despair among the peoples of Europe in which the final remains of civilization may be totally annihilated," it was predicted by Arthur Henderson, the British labor leader, at the opening session of the international socialist conference here yesterday.  
The remarks of Mr. Henderson followed those of Otto Wells of the majority element of the German socialists who declared German workingmen expected from the socialists the creator of a new league of nations. He characterized the league organized in Paris without Germany and Russia as members, as a "mere pretense."  
In alluding to the peace treaty during his address, Mr. Henderson declared the principal points of it ought to be subjected to immediate and thorough revision.

## Out State Weddings Are Illegal in Wisconsin

[BY INTERNATIONAL NEWS.]  
Chicago—Young couples from within the boundaries of the Badger state can come to Waukegan or other Illinois points and get married, if they wish, but they are liable to get into a peck of trouble when they return to Wisconsin and start keeping houses. The eugenic marriage law of Wisconsin has been held legal, and the judge ruled that marriages of Wisconsin couples performed outside the state to escape complying with the law are illegal in Wisconsin.

Pewter is an alloy of tin and usually antimony, copper and bismuth for the best qualities of pewter and lead for the inferior kinds. The tin always preponderates, and the proportion is largest in the best pewter. One hundred parts of tin to eight of antimony, four of copper and one of bismuth are given at the proportions of good ware.

## Yankee Movie Man Shows British "How It is Done"

London.—Albert A. Kaufman, one of the producing directors of the Famous-Players-Lasky corporation, has just arrived from New York to show British film artists how it is done. British-made films run a poor second in British movies. Kaufman will direct the production of "The Sorrows of Satan," an adaptation of Marie Corelli's novel. All the actors and actresses will be British. Kaufman hopes to equal work turned out in American studios.  
The next American-directed, made-in-Britain film will be "His House in Order," adapted from Arthur W. Pinero's play. Miss Elsie Ferguson, well known to British theatregoers, will star in this production.  
The British branch of the Famous-Players-Lasky corporation will start production in October, the aim being to produce some 15 films the first year.

## INSANE MAN KILLS HIS THREE CHILDREN

St. Louis, Mo., August 6.—August P. Kaiser, forty-five years old, proprietor of a butcher shop, armed with a knife, killed three of his nine children in his home here early today by slitting their throats. Kaiser had been under treatment for some time for a mental disorder.  
Securing a long butcher knife, he entered the bedrooms where two sons aged 6 and 4 were sleeping and cut their throats. He then killed his 18-year-old daughter. Kaiser was overpowered by a ten-year-old son after he had attempted suicide by slashing his left arm.

## Christmas League Plans Party; Mercury at 100

Getting ready for Christmas while Old Sol is juggling the 124 mark is the spirit of the Christmas League. Every Thursday night members of the Park Ridge Christmas league meet to prepare for a Christmas party. They are making paper dolls, completely furnished doll houses, books, paper furniture and other toys.

# THE WISHING PLANE

You remember in the last story I told you about the children arriving at the pony farm. Well they left the machine and started for the farmhouse.  
Ladydeer and Captain Brave introduced themselves to the man and woman who lived in the house and told them how they wanted the children to see the ponies and learn all about them.  
Has mother taught you how to introduce your friends to folks? Well, if she has been too busy teaching you jobs of other things you ask her to tell you right now how to do it.  
Well, the folks on the pony farm were only too glad to entertain the children.  
First of all, Jack and Jane were taken to the big sheds where there were many and lots of little ponies still too young to get up and walk around. They looked so tiny that the children were afraid to touch them for fear of hurting them.  
Next, they visited the field where the ponies just a little older were walking around with their mothers. And you never say any mothers watch their children any closer than the mother ponies did their little ones. Jack decided to pet one of the pony colts, but before he had barely touched the little pony his mother had run at him and snarled her teeth at him. Jack held of Jack and went up to the little pony with him the mother pony

decided Jack must be a pretty nice boy and so let him pet her baby.  
Probably by this time you think that Booh has been left behind some place or I have forgotten that he was along. Well, I haven't thought about him for a while, and neither had Jack nor Jane until they looked into the next field of ponies and saw Booh sitting in the middle of it with his head cocked on one side looking at the ponies in the most amazed fashion you can imagine.  
If Booh could have talked I think he would have said:  
"Well, I've seen some queer sights on this trip, but I never expected to

see toy horses alive and running around. If those animals are horses I'm a great big St. Bernard dog!"  
The children were worried about Booh for a minute. But they soon saw that he wasn't in any danger. In fact, he believed the ponies were glad to see him—he was so tiny, just like themselves. They came up close to him and rubbed noses with him just like two ponies or two dogs might. Then they eyed each other for a long time.  
When Booh finally decided to move one of the ponies started to chase him in fun and they had a great romp. Booh was all out of breath when he finally scampered back to the fence bars and trotted back to Jack's side.  
The children were taken next to a similar field.  
These ponies have been taught to carry people on their backs and you

children just pick out the ponies you want to ride and I'll put saddles on them," said the owner.  
Jack and Jane chose the ponies they thought were the cutest and for the next hour rode all around the farm and along the roads looking at the other fields of ponies.

## Snake Short Circuits Wires—Is Electrocuted

[BY INTERNATIONAL NEWS.]  
Ithaca, N. Y.—At Taughanock Gorge, near this city, a snake crawled to the roof of a power house, slipped through a hole just above the electrical apparatus, fell across two wires and short circuited them. Several villages were made dark and the snake was electrocuted.

## Lazy Husband Roundup Due at Yakima, Wash.

[BY INTERNATIONAL NEWS.]  
Yakima, Wash.—A roundup of "lazy husbands" is threatened here by local officials.  
Washington state has a law which puts lazy husbands at work and gives the families of such men their earnings. Official say the roundup is so plagued with men liable for prosecution under the law that a roundup will soon start. One case cited here was that of a husband who rode round the reservation in an automobile while his wife drove a hay rack for a laborer's wage.
